EVENT FLOW

SUBMISSION ROUND

- Participants must register through the official COMPOSIT website.
- After registration, participants can submit their creative entries under any one of the listed categories.
- Each participant is allowed to submit only one entry per category.
- All submissions must strictly adhere to the theme (details ahead).
- Entries will be evaluated by a panel of judges based on creativity, originality, relevance to theme, visual impact, and overall execution.

THEME RELEVANCE

REFRACT invites participants to creatively interpret the theme - **“Rare Earth Materials”** through visual storytelling & artistic expression.

Participants are encouraged to explore both technical and abstract interpretations of the theme. The submission does not need to be purely scientific — it may represent conceptual, environmental, industrial, societal, or futuristic perspectives related to rare earth elements.

Submissions may include (but are not limited to):

- The role of rare earth materials in modern technology
- Mining and extraction processes
- Environmental impact and sustainability
- Recycling and circular economy
- Future applications and innovations
- Strategic importance in geopolitics
- Industrial metallurgical processes
- Symbolic or artistic representation of “rarity” and “value”
- Human dependence on invisible materials
- Contrast between raw earth and advanced technology

Creative liberty is encouraged as long as the submission maintains a meaningful connection to the theme.
