

METACODE

GUIDELINES

2026

COMPOSIT | 31ST EDITION

OVERVIEW

DESCRIPTION

MetaCode is an exciting competitive programming event that combines computational problem-solving with applications in metallurgical and materials engineering. The event is designed to test participants' logical reasoning, coding proficiency, and analytical thinking through a series of challenging rounds.

Participants will tackle problems that require both programming expertise and an understanding of real-world engineering applications. MetaCode provides a unique platform where coding meets materials innovation, encouraging participants to explore how computational techniques can be applied to solve domain-specific challenges. Through this competition, students will sharpen their problem-solving abilities, enhance their technical skills, and experience the thrill of competitive programming.

STRUCTURE

ROUND 1 - Online Aptitude Quiz (Unstop)

ROUND 2 - Offline Coding Round

ELIGIBILITY: Open to All

TEAM SIZE: Individual Participation Only

FINAL EVENT DATE: 28th March, 2026

PRIZE MONEY: Rs. 30,000

EVENT FLOW

RULES FOR ROUND 1

- Round 1 will be conducted online on the Unstop platform as a quiz round.
- Questions will cover topics such as
 - Computer Science fundamentals
 - Data Structures and Algorithms
 - Applications of materials in computing tools and architecture
 - Aptitude
 - Puzzles
- This is an elimination round, and the top scorers will qualify for the final coding round.
- Shortlisted participants will be informed via email and invited to IIT Kharagpur for the final round.

RULES FOR ROUND 2

- The top participants from Round 1 will be invited to the offline coding round at IIT Kharagpur.
- The round will be conducted in the CIC Lab, IIT Kharagpur Campus as a competitive programming contest.
- Participants will be given 3–5 coding questions with a total time limit of 90 minutes.
- Allowed programming languages include
 - C++
 - C
 - Java
 - Python.
- Evaluation will be based on the number of test cases successfully passed.
- In case of a tie, submission time will be considered for ranking.
- The top three participants will be declared winners based on their final scores.

GENERAL RULES & FAQ

GENERAL RULES

- Every participant must register on both the COMPOSIT website and Unstop platform.
- Participants must use the Team ID generated on the COMPOSIT website while registering on Unstop.
- Only participants who qualify in Round 1 will be eligible for the offline final round.
- Any unfair practices during the competition will lead to immediate disqualification.
- The decision of the judges and organizers will be final and binding.
- COMPOSIT, IIT Kharagpur will not be responsible for any late, lost, or misdirected submissions.

FREQUENTLY ASKED QUESTIONS

Q1. What is the procedure for registration for the event?

All participants must first register through the COMPOSIT website, after which they will receive a COMPOSIT ID and Team ID. Participants must then enter their Team ID while registering on the Unstop portal to complete the process.

Q2. Do I need any special software or tools to participate?

No. Participants only need a stable internet connection and a laptop or PC to attempt the quiz on the Unstop platform.

Q3. Is prior knowledge required?

The quiz includes topics such as Computer Science, Data Structures and Algorithms, aptitude, puzzles, and applications of materials in computing. Basic familiarity with these topics may be helpful but is not mandatory.

Q4. Will participants receive certificates?

Yes, all registered participants will receive certificates for participation.
